“Protect your IP - Defend your Identity”

About RitAPI Advanced

RitAPI Advanced is a new product from PT Sydeco that serves as an enterprise-class inspection engine supported and included in ARCHANGEL 2.0 MiniFW-AI. In addition to the full protection of ARCHANGEL 2.0 MiniFW-AI, this product offers deep inspection as well as ASN verification, TLS intelligence, and behavioral analysis.

Key Futures

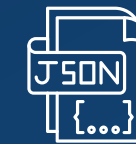

RitAPI Advanced “Protect your IP - Defend your Identity”

- AI-based decision engine

- ASN-based filter

- JSON structure validation

- Dynamic trust score

- Lightweight and modular installation

- Real-time IP/API inspection
